

ADDITIONAL PROGRAM UPDATE

SUMMARY CORRECTION & ADDITION:

(4.1.3) Kaitiakitanga: Community-led guardianship and automatic speech recognition for te reo Māori (*Suzanne Duncan, Peter Lucas Kaaka Jones, Taimania Jones and Keoni Kealoha Mahelona*) – Sunday, March 3, 9:00-9:30 am, Asia Room

Correct summary (our apologies for the error):

We demonstrate how innovation in language revitalisation succeeds when an indigenous organisation leads the corpus collection and technology development. We show how this organisation collected more than 300 hours of labeled corpus in ten days, which enabled the creation of an automatic speech recognition tool for te reo Māori.

We are also allowing them to present at the Technology Showcase as well, so you can learn about their work either on Friday or Sunday.

ROOM CORRECTIONS:

On **page 55** in the program, **(4.3.6)** should be in the **Kaniela Room** (not Tagore Room) and **(4.3.7)** should be in the **Tagore Room** (not the Keoni Auditorium). The Schedule listing on page 20 is correct.
